

**AMENDMENTS TO THE CLAIMS WITH MARKINGS TO SHOW CHANGES
MADE, AND LISTING OF ALL CLAIMS WITH PROPER IDENTIFIERS**

- 1.-6. (Canceled)
7. (New) A machine tool or production machine, comprising a display unit for visually displaying an operating sequence and/or parameter, said display unit being constructed as a projection display which includes a projection unit for projecting an image onto an opaque surface.
8. (New) The machine tool or production machine of claim 7, wherein the opaque surface is part of a flat panel onto which the image is projected by the projection unit.
9. (New) The machine tool or production machine of claim 8, further comprising a housing for attachment of the panel.
10. (New) The machine tool or production machine of claim 8, further comprising a housing having a working space, said panel being provided in the working space.
11. (New) The machine tool or production machine of claim 9, wherein the panel is an integral part of the housing.
12. (New) The machine tool or production machine of claim 7, wherein the display unit has virtual optically presented input means for capturing an operating action to thereby allow control of the machine tool or production machine by an operator.

13. (New) The machine tool or production machine of claim 12, further comprising a camera for capturing the operating action of the input means.
14. (New) The machine tool or production machine of claim 12, wherein the panel is touch-sensitive and captures the operating action of the input means.
